

Job description

BMP Consultants, LLC is an excavation company that specializes in performing Best Management Practices on all Commercial and Residential horizontal site work (including but not limited to: excavation, grading, drainage, sewer, water, septic). We are a small company that packs a big punch with efficiency and results in the NH, MA and ME areas.

We are looking for a Heavy Equipment Operator to expand our team and it's precision. Minimum of five (5) years experience is necessary. Construction based experience preferred. BMP has excavators, dozers, rollers, and loaders that require a skilled operator to run, but we are looking for an all around team player who is willing to get on the ground and assist when needed. Hydraulics license a plus but not required.

Pay rate ranges between \$30.00 - \$38.00 per hour based on experience.

Applicant must be legal to work in the U.S. and have a valid form of identification. Travel will be required to our different job sites so you will need reliable transportation. Applicant may also be subject to background checks and drug/alcohol testing.

OSHA 10 and/or OSHA 30 preferred but not necessary.
